Images and descriptions used in this guide may include those which pre-dated Covid-19 mitigations, and may not represent short-term restrictions (including face coverings, social distancing, accommodation bubbles and one-way systems) the University is required to undertake to ensure a Covid-secure environment.

This edition of your Undergraduate Guide features valuable insights from our amazing student editors, drawing on their own personal experiences and varied interests, to help you understand what life is really like at UEA. Meet them below...

Meet our editors

Kash

I'm a Biomedicine student, a member of the BIO Society and part of the Editorial Team for BIO Magazine. I also work as a Student Services Resident to support students living on campus.

Molly-Rose

I study English Lit with Creative Writing, and work in the SU shop part-time. I run a local feminist group and am part of Decolonise Literature, Drama and Creative Writing.

Max

I study Creative Writing and English Literature and have previously written for the award-winning university newspaper, Concrete. I also help with Open Days.

Tallulah

Whilst studying Education, I've loved performing with the Drama Society and working locally with young people. I'm also an Education Course Representative and a member of the UEA Pride Society.

Ellie

Alongside my History and Politics studies, I am Treasurer of the History Society and work part-time. I also help on Campus Tours and Open Days.

Nyeem

I'm studying Philosophy and History and am part of the UEA Boxing Committee, helping to run and organise the club. In the future, I hope to work within either the heritage or education sectors.

Norwich and Norfolk

When you join us, we'll introduce you to Norwich, a city where old and new collide. And to Norfolk, where you can experience some of the UK's most beautiful coastline and countryside. This is the perfect place to study because it's affordable, friendly, accessible and eclectic. We can't wait to welcome you home.

A city of culture

KASH RECOMMENDS

I love The Tipsy Vegan in Norwich, because it's really good food that will appeal to anyone who wants to try a plant-based meal.

[See more of Kash's Top Tips »](#)

The best thing about Norwich is the balance it provides between old and new.

You'll follow cobbled lanes to visit iconic medieval halls and watch the latest movie at a modern multiplex cinema. Famous brands coexist on the high street with an ever-changing line-up of pop-ups and independent shops, which are just getting started in the city.

There is a global and diverse community that welcomes the fresh perspectives and vibrancy that students bring, and plenty of food options to cater for all dietary requirements.

Norwich is a place where industry and ideas can thrive. It was voted one of the best places to live by The Sunday Times in both 2020 and 2021. We think that's because we celebrate arts, food, music and literature. Plus, every year, the events calendar for Norwich is epic.

[Find out more about Norwich and Norfolk »](#)

[Check out Norwich's best restaurants »](#)

Escaping the city

Beyond the city, UEA is surrounded by some of the UK's most idyllic countryside. Exploring the Norfolk coastline will bring you to beaches and nature reserves and the country's largest seal sanctuary.

See what else there is to explore »

You can take a long walk from UEA to a bustling medieval village for lunch or go on a leisurely cycle along beautiful coastal pathways. The great outdoors is on the doorstep of the campus, giving you the opportunity to sail on the River Yare or explore the world-famous Norfolk Broads by boat or on foot. This is an area of outstanding natural beauty, made famous by literature. It has been a source of inspiration to many writers, poets and artists through the years.

It's a fascinating landscape that provides opportunities for a variety of hobbies and activities. Norfolk is also home to many interesting towns: Cromer – which inspired Arthur Conan Doyle, Great Yarmouth – which features in David Copperfield, and South Quay – described by Daniel Defoe as the 'finest in England, if not the world'. Norwich is Norfolk's beating heart, while the rest of the county is a treat for the soul.

Norwich is such a special city. I didn't know much about it before I came here, and I was worried it might lack diversity or things to do.

But it's a very special place; there are foods from multiple global ethnicities, plenty of vegan options and strong engagement with LGBTQ+ communities. It's a place where nobody is excluded.

Norwich is very different to where I grew up in London, but it was a pleasant change. You never get bored and you always discover something new each day. I love exploring by bike, going to the castle or cathedrals and learning about the history of the city, as well as the creative arts scene. I enjoy it so much that I'm planning on staying, even after my time at UEA.

Check out The Norwich Lanes – a series of alleyways, courtyards and open spaces not far from Norwich City Hall. You'll find lots of great value independent retailers, cafes, restaurants and bars, as well as a cinema and two museums.

UEA – the heart of the action

MAX RECOMMENDS

If travelling to London, you can save money by buying a day travelcard which covers your return ticket plus unlimited travel between zones one to six!

See more of Max's Top Tips »

UEA campus sits on the edge of Norwich, sandwiched between the city centre and the River Yare. Getting around is easy, whether you live on campus or commute to study – there are lots of ways to travel and many different routes to explore.

There are buses that go directly to the city centre and train station from the campus, or it's a safe two-mile bike ride. Alternatively, there's a park and ride for commuting students who drive, or a coach pick-up point for anyone travelling further.

It's also easy to explore the towns and scenery around Norfolk. London is only two hours away and Cambridge is within easy reach, with direct links to both places by train and coach. There are direct flights to Europe and the rest of the world from Norwich Airport, which is 20 minutes from campus. Students come for a world-class education, and they stay in Norwich because, from here, you can go anywhere.

2

Your campus

UEA campus was designed with a vision – to create the ideal community environment that is accessible for all. To build a place where work and life are perfectly balanced. To combine cutting-edge technology spaces for learning and a natural, picturesque habitat. To ensure that productivity and inspiration can thrive.

A mini city

We know that, for many students, this will be the first time living away from home, and that's a big step. But all the amenities you're used to are nearby.

Take a virtual campus tour »

UEA campus is lively and active and there's always something happening. On The Street, you can stock up on essentials, get your laundry done, fix your bike and finish by grabbing a coffee. Nearby, you can also register with a doctor or dentist and pop into the campus pharmacy.

The campus is inclusive and accessible for everyone. The Faith Centre welcomes denominations from around the world. There are ample spaces to meet inside and out, to study in peace or in a group, and to get some mental and physical space. And the Student Services team is based here – on hand to make sure you have everything you need to feel and do well.

The campus is full of interesting places and people: students who live here, those who commute and plenty of friendly staff. You might even recognise the Sainsbury Centre, which featured in the latest Marvel films.

Discover more about our campus »

Everything you need

MOLLY-ROSE RECOMMENDS

I love the food stalls in The Hive, especially the one with Caribbean food! Check it out on the ground floor of Union House.

[See more](#)
[Top Tips »](#)

The campus here is like a town centre. There are lots of places to choose from when you're meeting friends or getting food. All food requirements are catered for right here.

We have more than 15 different places to pick up a coffee or meal, depending on where you are and what you fancy. We're particularly into Zest on The Square – it has a diverse street food menu of 28 cuisines. There's always plenty of variety, but fish and chips every Friday is a given. Hang out in The Square to meet friends, people-watch and soak up university life. Or relax in our green spaces and watch the world go by.

Whether you're after a beautiful view with your panini, a quick cup of (seriously good) coffee on your way to a lecture, or a hot home-prepared dinner to warm you up, you can find it on campus. Whatever you feel like, there's a spot for you.

Campus Kitchen outlets provide sustainable and environmentally friendly menus – good not only for looking after the planet but for students' budgets too.

Fantastic facilities

Students at UEA come here to receive the best possible education, and our primary mission – our first priority – is to provide you with the tools you need to succeed.

Explore the library »

Our facilities are cutting edge and we have invested in the very best technology and structures to support your learning. For example, all students are given free access to Microsoft Office 365 and relevant specialist software applications from day one.

The Library is open 24/7, providing access to study space, PCs and printing, as well as more than 800,000 books and journals across six floors. Our Digital Library gives you even more; it has an online catalogue with eBook and journal access from wherever you are in the world, and you can also request specific texts you'd like to see.

In our building you can use PCs or wireless to connect to free software and cloud storage, study individually or in groups, and use our study rooms equipped with IT and audiovisual kit. We make sure you have everything you need to make the best use of your study time, with no distractions.

[Max online »](#)

Unlike any other campus, UEA is like a mini city within a larger city – Norwich. The University isn't just buildings and more buildings; our campus is situated in the middle of a park. There's also a lake, called The Broad, for which you can get a permit to fish, and a hotel, Broadview Lodge. As well as this, UEA is home to the Ziggurats: student residences that look like pyramids and are also Grade II listed buildings.

My favourite spot on campus is The Square. Simply put, it's the hub of UEA – the central location where students meet or hang out.

There are lots of places to work when I'm not in lectures or seminars. I go to the library for the quiet, or to the Student Union where I can sit with a hot drink and be around people.

When I've finished my studies for the day, I take a short bus ride back to Norwich and leave my work behind, which is essential for maintaining a positive work/life balance and good mental health.

[Read more student guides to our campus »](#)

3

Your student experience

The experiences you have at UEA will extend far beyond your studies. We know that there is life outside the lecture theatres, and that's why we invest in activities and entertainment as well as libraries and classrooms. Making sure your experience here is a good one is a vital measure of our success.

Life beyond lectures

ELLIE RECOMMENDS

Ask people for coffee or to hang out after class if you get on with them – everyone wants to make friends, they’ll probably be relieved you asked!

[See more Top Tips »](#)

When you join us at UEA, you become part of a community. We are here to help you make friends, find hobbies and pursue your interests.

The wide range of extracurricular activities available to you spans everything from sports and events to clubs and societies. We’re confident that you will find your passion. For anyone who is bringing something new to the campus, there’s also the potential to start a club of your own. Joining in is a really good way to get to know people and we’ve designed things so that this is as easy and welcoming as possible.

This should be the most exciting part of the year, but we know that first step can be daunting. The Students’ Union team is here to make sure you feel at home, with access to activities you love and people you can relate to. You’ll always get a warm welcome and might make some like-minded friends along the way.

[Find out more about life at UEA »](#)

Students' Union

The Students' Union (SU) at Union House is a hive of activity designed to provide a social hub for all our students.

See Alicia's tour of the SU »

The venue has a massive calendar of free events and activities, three bars, global food, a live music venue, meeting rooms, community spaces and a hub of student support services.

Every student who joins us is automatically signed up, so you're already a member when you arrive.

The main purpose of the SU is to represent students. That means socially, academically, and personally. They're literally here for you, on your side, working closely with the Schools and Faculties so that you're always supported. They can help you with professional support on anything academic, or housing or welfare-related, as well as the fun stuff.

[Find out more about the Students' Union »](#)

Clubs and societies

Joining a club or society is the perfect way to meet new people with a shared interest or hobby. Both clubs and societies are open to anyone who wants to join.

Watch Joseph's challenge to try over 20 societies in 7 hours! »

There are more than 250 societies at UEA. The range is massive – from arts and anime to skateboarding, politics and Pokémon. There are also almost 60 sports clubs, from American football to martial arts, water sports and yoga. You can meet up to discuss or explore, practise and engage. This is a great way to celebrate your interests and broaden your horizons. Clubs and society groups are integral to the social calendar at UEA, hosting events and activities open to everyone. Even if you don't feel like committing to a club, you can attend dinners, street markets, fun runs or 'Do Something Different' taster events held throughout the year to meet the people involved.

We also help student communities to set up and run their own clubs and societies – so, if you have an idea for something new, you know where to come.

UEA students »**

From my first visit to UEA, I was really impressed with how friendly everyone was. My course was exactly what I wanted. I got involved in baseball; I liked the teamwork and camaraderie, and it gave me something to do at the weekends.

I also worked at Concrete, the student newspaper – I wrote about lots of things, edited and took the lead at times. It was absolutely the best thing I did at UEA and the work I did there has definitely helped me in my career.

I'd definitely recommend getting involved in as much as possible – you never know how it's going to turn out.

[Find out more about careers support »](#)

Entertainment

TALLULAH RECOMMENDS

My highlight from last year was my first ever 'Damn Good' club night at The LCR – an epic night!

[See more of Tallulah's Top Tips »](#)

Massive gigs, A-List line-ups, parties, music, cinema, dance – the list is enormous. Entertainment at UEA is non-stop; there are days out, discussion clubs, talks, sports, shows – too much to list, but here's a taste...

Entertainment means different things to different people, but the SU has something to suit everyone. Previous artists to appear at the SU's venue, The LCR, include Stormzy, Coldplay and Wolf Alice. It hosts more than 50 gigs a year, and the Sainsbury Centre puts on art shows, talks, films and special events.

The parties we have are unforgettable – the Welcome Ball is the first of the year and 3,000 students get involved. We have an annual Derby Day against Essex University. At the end of the year, we wind down with a massive festival-style ball that our graduates remember forever.

And this is just what's happening on campus. Norwich city centre has another even longer list of events to add to your calendar.

[Find out more about events and bookings »](#)

Sport and fitness

Find your
sport at the
Sportspark »

We've got a dedicated sports department, the stunning Sportspark and the Active Campus initiative to support the pursuit of sport and fitness.

We encourage everyone to join in and stay active, whatever you're into.

The Sportspark is a multimillion-pound development with a gymnastics centre and an eight-lane swimming pool.

There is also an international-standard athletics track, a climbing wall, floodlit football pitches, tennis courts and a state-of-the-art fitness gym. The teams, clubs and classes you can join (of which there are more than 300) include the classics like football, cricket and rugby, as well as some more unusual exploits like dodgeball and fencing.

All of our activities are available to everyone, from beginners to Olympians – the Sportspark is a great place to try something new. For us, the most important thing is taking part, feeling included and staying healthy, whatever your level might be.

Support and wellbeing

Your wellness is our top priority (and hopefully yours too). There are loads of teams and services dedicated to every aspect of health, so be sure to use them if you need to.

Find out more about student support services »

Your physical wellness is supported by our on-campus NHS medical centre. They have a full range of services and experts, including doctors, physiotherapists and a travel clinic. There's also a dentist and a pharmacy.

Your mental wellness and overall wellbeing are equally vital and there are multiple systems in place to help you thrive. These include settling-in services for when you arrive – like orientation, wellbeing support and faith services – to make sure you're secure and set up, and ongoing support like disability assistance, mental health support and financial advice.

There are student and residential life teams who help you navigate the non-academic needs of starting university, and there's a wellbeing team embedded in every Faculty, as well as a Talking Therapies team and a buddy(su) scheme, so you always have someone to talk to.

Additionally, our learning enhancement team is on hand to help you study more effectively and improve your work, providing expert guidance on study skills, maths and statistics, academic writing and the use of English.

Support and wellbeing: Tallulah's view

[Chat to
Tallulah online »](#)

At UEA, every student's mental and physical wellbeing is taken seriously. Advisers and support teams are available to provide one-to-one support with issues like finance, stress, workload and accommodation. Medical needs can be easily managed on campus at the Medical Centre and Boots pharmacy. Students who need specialist support can talk to the Disability Advisers and course-specific Disability Liaison Officers, who help with concerns and any required adaptations.

Mental health and wellbeing services provide talking therapies, workshops and group sessions to target any ongoing or new concerns. Specialist Mental Health Advisers work alongside other support staff, such as your personal adviser, to ensure that each student has the guidance and support they need.

With so many people working to support us, it's hard to feel alone. I really get the feeling that everyone within the support services want us students to be our best selves, to enjoy university and achieve to the best of our ability.

Study Abroad

Imagine studying at a Scandinavian university, spending a year at a US college or a semester in Tokyo. Study Abroad is a programme that connects UEA students to the rest of the world.

Find out more about studying abroad »

Chat to the dedicated Study Abroad team to discuss the opportunity to get a new perspective on your degree – and the world.

The benefits of a semester, full year or summer abroad are so wide – a chance to make international connections, absorb new perspectives on your subject and discover new ways of learning. The programme at UEA spans the planet, with partnerships connecting you with university placement hosts all over the world. Visit our Study Abroad webpages for some unbelievable photography. This is more than a change of scene – living abroad is a way to break out of your comfort zone and prove to yourself (and future employers) that you're open-minded, adaptable, and independent.

The Study Abroad section on our website links to insightful blogs and honest testimonials from students who have spent time abroad.

Find out more about their experiences and the lessons they learned.

With so many accommodation options, you can choose one that suits your personality. I'm a homebody and enjoy a peaceful place to live, so the UEA Village was definitely right for me.

It felt like a home away from home, and the short stroll to the campus is really nice and woke me up in the mornings!

You meet so many great people through living together, and at UEA in general. I've made great connections with life-long friends, and have really grown into my own person, as well as transitioning into an independent adult.

**[Find out which accommodation
is right for you »](#)**

Your new home

MOLLY-ROSE RECOMMENDS

The accommodation at Norfolk Terrace (The Ziggurats) is really sociable, there's always something going on and it's a great introduction to life at uni.

[See more Top Tips »](#)

The accommodation range at UEA has something to suit all sorts of needs. You can decide between on or off campus, modern or historical, country or city.

Our options are comfortable, interesting and designed to suit all budgets. So, with Norwich being a very affordable city overall for students, it just depends on what you like.

We have twice won the Whatuni Student Choice award for accommodation, and we also have a Green Gown award for sustainability in the built environment.

Students who decide to move to the UEA campus can choose between an excellent variety of set-ups and locations. If you have any questions about accommodation choices, you can contact a student adviser or the accommodation team. It's natural to have questions and it's also normal to be excited (or nervous!), especially if this is your first time leaving home.

[Take a look at all our accommodation options »](#)

Campus spirit or city buzz?

See where you could live with our accommodation finder »

Enjoy a 360 degree video of one of our rooms »

The Ziggurats are the iconic flats you'll probably recognise from images of UEA. They are one of many on-campus options and they offer stunning views and a variety of sharing arrangements.

Suffolk Walk, The University Village, Nelson Court... these are buildings that will soon be familiar to you. But how to choose when there are so many? Our accommodation finder helps you search through a series of questions: Do you prefer en-suite or a shared bathroom? More flatmates or fewer? Start there and also check out video tours of the options available that suit your budget.

If you want to immerse yourself in city life, check out Pablo Fanque House, which is managed by Homes for Students and provides studios, as well as en-suite rooms, in the heart of Norwich.

Because this is such a student-friendly city, you will also find loads of house share options. These are with private landlords, but do contact the Students' Union Advice Centre if you have any questions, or need advice. And commuting to campus is easy if you prefer not to live on site.

5

Careers

At UEA, we prepare our students for life, not just for studies. CareerCentral is a service dedicated to broadening horizons, building experience, exploring options and increasing confidence. Our aim is to inspire and enable our students to reach their potential throughout their working lives.

The world of work

**Find out more
about careers
at UEA »**

UEA students represent an amazing talent pool to future employers and organisations. Our careers support service helps students become some of the most employable graduates around.

CareerCentral offers a massive array of services to help with all aspects of the job search, from finding roles and building CVs to establishing your ideal career pathway. From the first day of study to long past graduation, we work with you to make sure you're aware of options and opportunities.

We know employability is important to you. We have an enormous number of resources both online and in real life.

From the 2018–19 cohort, 75% of our home graduates were in 'highly-skilled' work or significant further study just over a year after graduation.

Our graduates are excellent ambassadors for the UEA experience.

Build your profile

MAX RECOMMENDS

Definitely speak to CareerCentral about the UEA Award – it allows you to develop interview skills and enhance your CV. Importantly, it's also recognised by employers!

[See more of Max's Top Tips »](#)

How can you turn ambition into job offers? The journey to your dream job is likely to be made of many steps.

But you can start long before you jump onto the career ladder. There are loads of opportunities to start building your portfolio of experience and expertise. And there are many ways to showcase your character, interests and abilities to prospective employers before even entering the job market. For those just starting out, we offer guidance in many forms, such as:

- Jobs fairs
- Confidence workshops
- CV-building schemes
- Interview practice
- Mentoring

These are all small steps in the bigger picture. You can also travel abroad, take internships and volunteer. Your time here isn't just about studying – it's about becoming equipped for life and for the work that will fulfil your ambitions.

students online »

I am part of a community exploring the central Arctic Ocean ecosystem, aiming to guide society in future decisions regarding climate change.

My degree at UEA put me in close contact with a wide network of researchers, many of whom are passionate about making a positive impact on the world. I only had to ask during my undergraduate degree, and I was given many opportunities to be part of exciting, meaningful research.

Despite working in some of the most remote parts of the planet, I still find myself collaborating with the connections I made while I was at UEA.

[Discover more about our careers support »](#)

George, pictured, established his successful business, Coral Eyewear, with the support of the UEA Student Enterprise Service and the University's Enterprise Fund 'Scale It' award.

Student enterprise

Check out our website for more information »

Or follow us on Twitter »

Whether your motivation is to change the world, to freelance, or to make money, the Student Enterprise team are here to help you.

They'll work with you to develop, launch, grow and scale your business idea through workshops, events, one-to-one support, and provide access to industry experts and UEA alumni.

Need an injection of funding to kick start your business or idea? We're here to support you, no matter what stage you're at. Whether you're looking to test an idea, launch a venture, or secure growth for a social or commercial enterprise that you're already running – funding could make all the difference in unlocking new opportunities. You'll have the chance to apply for grants between £500 and £7,500, or an investment of up to £50,000.

But remember, enterprise isn't just about running your own business. Entrepreneurial skills and experience gained at university will help you make your mark in an increasingly competitive employment marketplace.

Industry experience

**See which
courses offer
industry
experience »**

Many UEA courses feature a placement or year in industry option, providing students with invaluable experience in the workplace, increasing your employability and giving you the chance to put your learning into practice... while sometimes getting paid.

A placement is a period of supported work experience that is usually assessed and is an opportunity to gain real experience in an organisation.

Students seek and apply for a placement during their second year, which will start in the third year of their degree.

Students develop key skills and competencies, gaining experience in a sector that interests them, taking on a wide range of projects and tasks which in the past have included: the testing and support of novel technology in biology, clinical trial development, the development of analytical techniques in support of product development and manufacture, and creating sustainable transport strategies.

6

Research with impact

Research is about inspiration, learning, flexing your curiosity, applying imagination and, with us behind you, contributing solutions to life's most important challenges. UEA is an exciting place to be – a place where your work can and will have a tangible impact. Join us at the forefront of global research.

Thinking Without Borders

**Find out more
about Thinking
Without Borders »**

Thinking Without Borders is the name we've given to the combined projects happening at UEA. It describes our approach to bringing together disciplines in new and exciting ways to address existing and emerging global challenges.

We have some of the world's finest facilities and brightest minds working together every day to discover new ways to change the world for the better. Whether it's through policy change, research and development of technology, working with organisations like the British Red Cross to get clean water to children, or contributing to the Intergovernmental Panel on Climate Change (IPCC) with trusted climate change data.

Research at UEA doesn't happen in isolation – it's not just teachers and students tinkering with ideas. This is the combination of many departments, organisations, companies, industries, groups and individuals working together and providing real insights and solutions to critical global problems.

Our research home is Norwich, but we make waves around the world.

What will you do?

What is your area of interest? Is it carbon, water, wars or words? Are you data-driven or intrigued by ice? Given the resources, what would you do?

- We can show the connection between carrying water and educational inequality
- Of all the universities in the world, we've made the most substantial and sustained contribution to the IPCC across disciplines
- Our lab technicians saved us 60,000 litres of water a year by pioneering a way to adapt condensers in our chemistry and pharmacy labs
- We have a silent fleet of underwater robots, slowly revealing the ocean's secrets hundreds of metres below the surface
- We have impact at a national level through influencing Government and policymakers to safeguard children.

Led by experts

The lecturers and teachers that you'll meet are world experts. They join us at UEA to facilitate your learning journey, and both your personal and professional development.

The education we provide is about more than simply gathering knowledge, it's a process that spans many opportunities and experiences. The long-established links we have with international organisations and research councils around the world give you instant access to ideas, people and institutes.

You will meet and mingle with experts and ground-breaking thinkers, who will welcome your fresh perspective. It's people that make UEA unique. People like you, who aren't scared to push things forward.

Are you ready to follow in the footsteps of alumni such as Nobel Prize-winning geneticist Sir Paul Nurse and novelist Sir Kazuo Ishiguro?

Our research is in the top 50 worldwide (World Top 50 for research citations in The Times Higher Education World University Rankings 2022).

Research: Darrell's view

Name:
Darrell

From:
Norfolk

Studied:
Biological Sciences

Career:
Lecturer

**Chat to real
UEA students »**

I came to UEA because lectures and practical sessions were led by scientists at the forefront of their respective fields. It meant I could study at the absolute limit of our life sciences knowledge, while also learning the basics.

I didn't know what career I wanted when I started, but in my second year I attended a lecture that blew my mind.

After the lecture, I started working in the Professor's lab in my spare time because I was so inspired.

It was thanks to that experience that I'm now a research active Lecturer myself and have recently had a paper published that works towards helping identify and treat childhood bone cancer.

Facilities and resources

**Find out about
our research »**

UEA is at the heart of the Norwich Research Park, which is one of Europe's largest collaborative research sites and home to some of the finest minds and best facilities in the world.

You'll join a thriving community of researchers, innovators and students, working together to develop new knowledge and solutions – fusing the latest thinking from across the sciences, social sciences, medicine, health and arts and humanities. The Park invests more than £130 million in research every year and is a combination of multiple cutting-edge facilities:

- The New Science Building for science and engineering
- Quadram Institute – a centre for food and health research
- Sleep and Brain Research Unit

- Bob Champion Research and Education Building for cancer, heart and other disease research laboratories
- The Zuckerman Institute for Connective Environmental Research (ZICER)
- The Centre for Ocean and Atmospheric Sciences (COAS)
- The Biomedical Research Centre (BMRC) and imaging suites
- Two new labs for energy research
- Productivity East – the £7.4 million home for engineering, technology and business management, which opened in summer 2021.

The essentials

On the next few pages, you will find the information you need to start your UEA journey. But if you're unsure or need more detail, please get in touch. Our current students are available through 'Ask Us' on our website to answer questions about university life and you can also get a direct line to course leaders who can talk you through your choices, and advisers to help you with the details.

Visiting us

Join us for an Open Day:

Sat 2nd July
2022

Sat 10th
September 2022

Sat 22nd
October 2022

Sat 19th
November 2022

**Find out more and
book your place »**

Open Days are the best way to explore our campus, discover more about our courses and chat to lecturers and students about what it's like to work, study and live at UEA.

You can attend talks, demonstrations, accommodation and campus tours and look around some of the facilities. In 2022, some elements of the Open Days will be virtual and some will be in person – but, either way, you'll be able to discover everything UEA has to offer.

If you are offered a place, you will also receive an invitation to your Applicant Day. This is an exclusive opportunity to take a tour around our diverse campus and find out more about your new home and degree subject. Some subject areas offer specialist activities such as taster lectures. Applicant Days are also a great chance to meet other offer holders and explore the city and surrounding neighbourhood.

Step 1

Understanding fees and costs

See how much maintenance loan you are entitled to »

Find out more about the full range of funding options »

There are two main costs associated with going to university: tuition fees and living expenses such as rent, bills and food.

Tuition fees

The likely tuition fee per year for UK students is £9,250.* If you're an eligible UK student**, then you do not need to pay your tuition fees up front. Instead, you can borrow a tuition fee loan from Student Finance England to cover the cost of your fees. This loan gets paid by Student Finance England directly to the university, and is available to everyone, no matter what your household income.

Maintenance loan

Living costs are a part of your everyday life at university. They include things such as rent, bills, textbooks, food, travel and more. To help manage those costs, UK students** can also apply for a maintenance loan from Student Finance England. The maintenance loan is different to the tuition fee loan, in that it gets paid into your bank account in three instalments throughout your academic year. Not every student gets the same maintenance loan amount, as the amounts vary depending on your household income, your personal circumstances and where you live when you're at university.

1
Understanding the fees

2
Scholarships and bursaries

3
How to apply for your course

Maintenance loans for care leavers or estranged students will not be based on household income.

Living costs vary from person to person and there are lots of money-saving tips and tricks you can take advantage of as a student. At UEA, there's free internet on campus, affordable shops and competitive rents. UEA students can also find flexible job opportunities to help keep the daily finances ticking over by visiting CareerCentral on campus.

Repayments

Once you finish university both your tuition fee loan and maintenance loan get added together. However, you only start making repayments on these loans (as well as interest on the loan) once you've graduated and have started earning above a certain salary (£27,295 as of April 2021). Remember, anything remaining on your loan after 30 years is written off, so some people won't end up paying back their full student loan.

This might be your first-time taking out loans and that can be daunting. Your student loan won't affect your credit rating and repayments will only kick in when you start earning above £27,295 (as of April 2021).

* Tuition fees increase annually for all students (UK undergraduate fees, whose rates are regulated by the UK Government, are amended in line with any alteration advised by the UK Government). For subsequent years of study, fee increases will not exceed 4% or the percentage increase of the appropriate UK Government regulated fee.

Some UK students may not be eligible for student loans. **See the full eligibility criteria »

Step 2

Scholarships and bursaries

Use our
interactive
budgeting
workbook »

Visit our
bursary pages
for details
and to view
eligibility
criteria »

Finance shouldn't be a barrier for students to excel. At UEA, we offer bursaries and scholarships to help you realise your potential and reward excellence.

Bursaries and scholarships are financial support that you don't need to pay back. If you're an aspiring athlete, have a passion for music, excel in your chosen subject or just need some extra financial support because of your circumstances, we may have funding options to help you.

Bursaries

Bursaries are offered to support UK students based on household income or social factors. You do not need to apply for a bursary – it is awarded automatically using the information we receive from Student Finance England. Bursaries cannot be combined; however, you can receive both a university bursary and scholarship if eligible.

1
Understanding
the fees

2
Scholarships
and bursaries

3
How to
apply for
your course

The essentials

Scholarships

We have a range of scholarships available for students meeting different criteria, including those excelling at sport, academia or those with exceptional musical talent. Our Bright Spark scholarship offers £3,000 to reward high performance in research projects such as the Extended Project Qualification (EPQ) or equivalent.

For most of our scholarships, you will need to make an application, so check the requirements, deadlines, terms and conditions on our [scholarship finder](#) »

TALLULAH RECOMMENDS

My advice would be to plot out how much you should be spending each week – on a notepad or a budgeting app. Don't stress too much, but also don't spend your loan all at once!

[See more of Tallulah's Top Tips](#) »

Step 3

How to apply for your course

Roughly 4,000 new students join us each year and each application is judged on its own merit.

You need to apply to UEA online through the Universities and Colleges Admissions Service (UCAS). Once we've received your application, we'll review your academic record along with your personal statement, which is an opportunity for us to find out more about what makes you tick. We want to know about your skills and experience and how you'll fit in here at UEA.

We carefully review all applications and decide whether to send an offer or to invite you to an interview. These are a chance for us to get to know you better (and you us!).

You'll find typical entry requirements at the back of this guide, but remember that we welcome applications from students with a range of qualifications. Unless you've already got your exam results, offers are likely to be conditional.

1
Understanding the fees

2
Scholarships and bursaries

3
How to apply for your course

We base these offers on your circumstances and the demand for your course. As long as you get the grades in your conditional offer, and make us your firm choice, you're guaranteed a place at UEA.

Find out more about applying through Clearing, deferring a place, or the application process on our website, or get in touch with our advisers.

Remember, we want to meet you, we're keen to welcome you to UEA.

Speak to us on Live Chat on our website, Monday to Friday, 9.30am to 4.30pm, for any questions you have about this year's admissions.

Alternatively, e-mail admissions@uea.ac.uk for any other queries.

Need help with writing your personal statement? Check out our workbook »

The essentials: Molly-Rose's view

Writing

**Got any
questions?**

[Chat to Molly
-Rose online »](#)

When looking at different universities, I wanted to find out everything I could about them. Going to Open Days helped me decide that UEA was right for me.

Everyone was so friendly, and I loved that everything was on campus. There's a real community feel. One thing I looked into at the Open Day was the financial support I could receive; it's always good to check ahead. There are lots of scholarships to apply for, as well as bursaries for eligible students.

Open Days are a great chance to ask questions, and joining one made the whole process simpler for me.

[Check out our upcoming Open Days »](#)

Faculty of Arts and Humanities

The study of Arts and Humanities is all about exploring how humans create and shape their shared world, and everything in it – language and literature, culture and society, film and media, and society and government.

In studying these things at UEA, we cultivate inclusivity, as well as ambition. We work with arts, media, heritage and political organisations, both nationally and internationally, to help reinvent our world for the better.

We give you the confidence to shape your own future and make your mark on the world, because some of tomorrow's careers don't even exist yet. We are a place for the courageous and the compassionate – for those who can think critically, communicate clearly, act creatively and listen carefully.

Does that sound like you?

Interdisciplinary Institute for the Humanities

Literature, Drama and Creative Writing

Politics, Philosophy, Language and Communication Studies

Faculty of Medicine and Health Sciences

The study of medicine and health centres around our common vision and united sense of purpose – to be part of the challenge to improve healthcare, answer humanity’s most pressing questions and work to cure the world.

The culture in this Faculty is supportive and the environment we create together encourages excellence, curiosity and compassion.

We work alongside the NHS and other research partners (including the Norwich Research Park) and our teaching has a strong focus on early clinical placements, which gives our students patient contact and nurtures talent from the outset. The Faculty of Medicine and Health Sciences is designed to elevate and maximise education, collaboration and innovation.

[View all of our courses »](#)

Our schools:

Norwich
Medical School

Health Sciences

Faculty of Science

The study of science is about expanding minds and being part of the next generation of people to consider some of humanity's biggest questions.

The Faculty of Science is the combination of seven Schools, as well as research across a huge array of institutes, organisations and projects.

The Faculty and the Schools that build it look at everything from the smallest microbe to the expanse of the universe. Science is about exploration, discovery, theory and practice.

The Faculty of Science is big, it's multidisciplinary and it's strengthened by the spirit of collaboration. Science has the power to change the world, and so do you.

Our schools:

Environmental Sciences

Mathematics

Pharmacy

[View all of our courses »](#)

Faculty of Social Sciences

The Faculty of Social Sciences is home to seven Schools of study that span the human experience. Joining the Faculty means that you've chosen to engage with the systems that make civilisations work.

Will you push things forward? Challenge current thinking? Find, develop and use your voice? Will you help us to seek out opportunities and ways to use your research to make an impact on individuals, communities, policymakers and companies in the UK and around the world?

If your answer to these questions is yes, then you're ready to join us on a mission to make a difference through education, reasoning, enterprise and engagement. Join us in our internationally important research.

Important information

About this brochure

We have taken great care in compiling the information contained in this brochure, which we believe to be accurate at the time of going to press. Occasionally, it may be necessary to make changes – for example to courses, facilities or fees. Examples of such reasons might include a change of law or regulatory requirements, industrial action, lack of demand, departure of key personnel, change in government policy, or withdrawal/ reduction of funding. In addition, the Covid-19 pandemic that was impacting the UK at the time of going to print may also impact the University's ability to deliver courses and other services. Changes may, for example, consist of variations to the content and method of delivery of programmes, courses and other services; the discontinuation of programmes, courses and other services; or the merging or combining of programmes or courses.

The University will endeavour to keep such changes to a minimum, and will also keep prospective students informed appropriately by updating our course information on our website: uea.ac.uk.

No liability for changes outside of our control

Should industrial action or other circumstances beyond the reasonable control of the University occur, and this interferes with the University's ability to deliver services in accordance with the descriptions provided, the University will use all reasonable efforts to minimise disruption as far as it is practicable to do so.

Provided the University complies with its obligations set out here, it shall not be liable to students, applicants or any other person for any loss, costs, charges or expenses arising out of the information set out in our course finder and promotional marketing activity, changes to that information, or any disruption or interference of the type described above.

University terms and conditions, procedures, rules and regulations

If you accept an offer of a place, it will be subject to the University's terms and conditions, the latest version of which is available through our Statutory, Legal and Policies section of our website.

Important information (cont.)

Equal opportunities

UEA operates an equal opportunities admissions policy. It aims to ensure that no applicant will receive less favourable treatment on the grounds of sex, age, marital status, race, colour, nationality, ethnic origin, sexual orientation, or political or religious beliefs.

The University welcomes applications from candidates with disabilities. Information contained in this brochure may also be made available in other formats to ensure access for everyone.

Please call us on +44 (0) 1603 591 515 to discuss.

Ethical Investment Policy

UEA operates an Ethical Investment Policy.

Images and descriptions used in this guide may include those which pre-dated Covid-19 mitigations, and may not represent short-term restrictions (including face coverings, social distancing, accommodation bubbles and one-way systems) the University is required to undertake to ensure a Covid-secure environment.
