

Data in this report is for **internal use only**, and should not be shared externally.

The table below shows the approximate response rate - please note that this should be used as a guide to response rates and may not reflect actual departmental survey uptake due to the survey allowing staff to select 'prefer not to say' and 'other' as their department.

The data below is a snapshot of a single instance of the Staff Pulse survey. As both the overall staff numbers and the numbers of respondents in Staff Pulse remain similar at each quarter, this data is not shown over time for each instance of the survey. Response rates are monitored, this page will be reviewed as and when data changes.

1. Approximate % of respondents

Please note that these figures are approximations only: due to the anonymity of the survey, staff are required to self-select their department and can choose to select 'prefer not to say' or 'other'. Respondents selecting these options are therefore not included in their departmental percentage below.
